

PHINIA Makes Its Automechanika Frankfurt Debut With a Host of New Launches

- Leader in premium OE fuel systems and electrical systems, and aftermarket products, PHINIA Inc., will be attending Automechanika Frankfurt between September 10–14, 2024
- PHINIA will showcase a wide range of new products from DELPHI®, DELCO REMY® and HARTRIDGE™ portfolio at its booth, including the launch of brand-new workshop solutions and premium parts
- Key members of PHINIA's senior leadership team will host a series of presentations at the stand, covering everything from working towards achieving industry-wide sustainability to PHINIA's aftermarket strategy

Frankfurt, Germany (August 29, 2024) – PHINIA Inc. (NYSE:PHIN), a global leader in premium fuel systems electrical systems, and aftermarket products, will join global leaders in the automotive aftermarket at the industry's biggest event—Automechanika Frankfurt—taking place at Messe Frankfurt between September 10–14, 2024.

The 2024 show marks the first time PHINIA will be present at this flagship aftermarket event since its spin-off and launch as an independent company in July 2023. PHINIA will be attending the event with its brands Delphi, Delco Remy, and Hartridge. Located in Hall 4 at stand D51, PHINIA will showcase an array of activities and technologies at the event, demonstrating its commitment to being focused on today and ready for tomorrow.

PHINIA's leading aftermarket brand, Delphi, will be exhibiting an array of new products on the stand from its Steering & Suspension, Braking—including its light commercial vehicle brake pads—, NOx Sensor and Delco Remy branded Starters & Alternators ranges. Delphi will also be presenting its latest development for Diagnostics customers; a central hub permitting technicians quicker access to data and information, enabling them to diagnose and complete more jobs, while maximizing efficiency and increasing profitability, as part of its marketing-leading suite of workshop solutions.

Visitors to the stand will also have the opportunity to join PHINIA to experience "The Journey Forward": a cinematic journey through 125 years of collective experience at the heart of the automotive industry and a glimpse of future innovations to come.

Several key representatives from PHINIA's global teams will be on the stand throughout the event, giving attendees an opportunity to hear from senior leadership about the company's vision, aftermarket strategy, and the business' successes since its spin-off in 2023:

- **September 10, 16:00:** Reflecting Automechanika's theme for 2024, 'Driving Transformation', Todd Anderson, PHINIA's CTO, will host a discussion regarding the industry's route to carbon-free and lower carbon propulsion.
- **September 11, 13:00:** Juan Thomaz, Vice President and General Manager Aftermarket Europe Middle East and Africa (EMEA), and Neil Fryer, Vice President and General Manager, Global Aftermarket, will present an overview of PHINIA, its aftermarket strategy, and the latest product launches from its leading aftermarket brands, Delphi, Delco Remy, and Hartridge.

PHINIA will also showcase its Workshop Solutions and demonstrate the capabilities of its Diagnostic tools in the AGORA, at location H10, where daily competitions for technicians to race to replace brake pads and discs in the shortest times will be held. There will be daily winners and a grand prize for the overall fastest time at the event.

"PHINIA leverages over a century of industry expertise combined with advanced technology to bring leading industry-defining solutions to the global automotive aftermarket," said Fryer. "Our focus extends far beyond the transition to future fuels to our commitment to keeping vehicles running more efficiently today and on

the road for longer. We are excited to showcase our market-leading capabilities and innovations at Automechanika Frankfurt and to exhibit at this prestigious event as PHINIA for the first time."

With participants from 175 countries, Automechanika Frankfurt is the world's leading trade fair for the automotive aftermarket. The 2024 show focuses on innovations and transformations that support a sustainable future, showcasing the latest automotive products, services, and technologies.

-Ends-

Notes to editors

PHINIA is displaying its product portfolio, including Vehicle Electronics & Engine Management, Chassis & Maintenance Solutions, Diesel Fuel Systems, Gasoline Fuel Systems, and Services & Workshop Solutions.

About PHINIA

PHINIA is an independent, market-leading, premium solutions and components provider, with over 100 years of manufacturing expertise and industry relationships and a strong brand portfolio that includes DELPHI®, DELCO REMY® and HARTRIDGE™. With over 13,000 employees across 44 locations in 20 countries, PHINIA is headquartered in Auburn Hills, Michigan, USA.

Across commercial vehicles and industrial applications (heavy-duty and medium-duty trucks, off-highway construction, marine, aviation, and agricultural), and light vehicles (passenger cars, trucks, vans and sport-utility), we develop fuel systems, electrical systems, and aftermarket solutions designed to keep combustion engines operating at peak performance, while at the same time investing in advanced technologies to unlock the potential of alternative fuels.

By providing what the market needs today to become more efficient and sustainable, while also developing innovative products and solutions to contribute to lower carbon mobility, we are the partner of choice for a diverse array of customers – powering our shared journey toward a cleaner tomorrow.
